

Laguna Lake Dog Park Revitalization Project Begins Soon!

The park will be closed to the public starting on September 16 for construction, with the park expected to reopen in Spring 2025.

PROJECT HIGHLIGHTS

- **Fencing & Safety:** Full perimeter fencing around the 3-acre property with separate areas for small and large dogs.
- **Accessibility:** ADA upgrades and new pathways for enhanced accessibility.
- **Ground Improvements:** Upgraded turf areas, mulch, and improved drainage to maintain the natural landscape.
- **Amenities:** New play structures for dogs (in partnership with local community groups), additional seating areas, and drinking fountains with dog bowls.
- **Landscaping:** Additional landscaping, irrigation, and new trees to enhance the park's beauty.

During construction, **dog owners can walk their dogs on leash in their neighborhood and City parks**, or other nearby dog parks such as El Chorro Park dog park or other neighboring cities. This underscores the project's importance to the community in providing a legal, fenced-in formal dog park in the City.

We appreciate your patience and support as we work to make Laguna Lake Dog Park a better place for the community. Stay tuned for updates and learn more at www.slocity.org/ParkProjects

*Construcción del **parque de perros de Lago Laguna** comenzarán en breve, y el parque estará cerrado al público a partir del 16 de septiembre; se espera que el parque vuelva a abrir en la primavera de 2025.*
